The slider you see on this website is the **Free Edition** of another cool product JSN EasySlider from JoomlaShine. Please click on the below button to check the PRO Edition of this extension.

See Demo Get It Now

JSN EasySlider is the cutting-edge way of presenting content on the web with the **“Three-I” standard:** Impressive - Informative - Interactive.

- Impressive to catch and maintain attention
- Informative to convey message effectively
- Interactive to drive engagement with specific Call-To-Actions

It allows you to synthesize **dynamic content types**: text, video & images and leverage the strength of **stunning effects** for effective information conveyance. Besides superpower for content presentation, it also has a uniquely outstanding feature: **super user-friendly interface**. With Drag-n-drop functionality, WYSIWYG Editor, Timeline editor and live preview, no lines of code are required to get a stunning slider.

Here after is the slider created by the FREE Edition of JSN EasySlider:
